LOOKING BACK...

Look back at your notes from August 31, (D1: God's Transformation of Man). Remind yourself of the process that takes a man from being unregenerate to heavenly.

THE UNREGENERATE MAN

1. What are some of the more sobering realities of the unregenerate condition to you? How do these realities inform the biblical principle that salvation is entirely a work of God?

THE REGENERATION EVENT

2. What are some of the more stunning aspects of the regeneration event and its benefits? How do these realities grow your view of God as you consider what He did to reconcile you to Himself?

3. How does Scripture's teaching of the regeneration event and its benefits help you as you consider the task of sharing the gospel with the lost around you?

THE REGENERATE MAN

4. Scripture teaches that the regenerate man is in a mixed condition with new affections for God, but living in the same body of flesh (Galatians 5:17). With that in mind, what are some of the biggest threats to your sanctification?

5. What descriptions of the regenerate condition do you find encouraging? How do these truths help you as you consider that your battle with sin will never end in this world?

6. How would you explain to an unbeliever the biggest difference between yourself today and the man you were before you came to Christ?

LOOKING AHEAD...

In preparation for our next lesson (D1: God's Transformation of Man, Part 2), think about some of the frailties of our bodies and minds in this world. Prepare yourself to encounter some truths about our heavenly condition that will resolve those frailties.
